

## You can get paid for your tax expertise in smiles, appreciation, hugs — or all of the above.

Every year, thousands of tax volunteers — people who have spent their careers counting and dealing with numbers — join us in helping others do their taxes correctly and on time. They assist people who don't feel comfortable doing their own taxes but can't afford professional help. Last year alone over 32,000 volunteers helped over two million people across the country get their taxes done. Get the joy and satisfaction of helping by becoming a tax-aide volunteer today.
